Wyle Labs is the prime contractor providing R&D analysis for RIAC Technical Area Tasks (TATs) and provides RMSQSI on RIAC TATs.

### RIAC FUTURE

There will be one joint BCO (DSIAC) for AMMTIAC, CPIAC, RIAC SENSIC, SURVIAC, and WSTIAC.

This will align with the Defense Systems structure and reduce overhead costs.

Timeline:

DSIAC BCO: December 2013

Defense Systems TATs: January 2014
